Course: Slightly revised course this year, as the Woodland Trust have put some roadstone tracks around the start straight. The route is an out and back followed by two laps of a loop before returning, approx. 10K in total, with the Start and Finish situated in the events field of the Woodland Trust.

Start / Finish Location : ///keyboards.shoulders.news

Almost all on grass tracks, except for around 400m's on compacted gravel with plenty of cheerful marshals throughout the route.

Footwear: Off-road shoes, studs or spikes. Note: the course has no tarmac although there is still a short section of compacted gravel track.

Club Shelters / EZups: Depending on the conditions of the start / finish field on the day we hope that one vehicle per club can be driven onto or close to the field to make set up easier. Cars must drop off before the junior race prepare to start, 9.45, any cars trying to drop off after 9.45 will be asked to carry their shelter into the field. Cars must return to the car park once shelters are dropped off.

The field not particularly sheltered from the wind, please make sure you bring plenty of guys and stakes to secure you shelter.

Toilets: Toilets are in the visitors' centre. No showers.

PLEASE REMIND YOUR RUNNERS NOT TO CLEAN THEIR FOOTWEAR OR THEMSELVES IN THE TOILETS AS IT CAN BLOCK THE DRAINS AND LEAVES THEM VERY MESSY FOR OTHER PARK USERS. DOING SO COULD ALSO JEPORDISE FUTURE EVENTS.

Cafe: Ramblers Café closed earlier this year and has not yet reopened. The visitors centre has coffee machines and snacks and there are sometimes mobile catering units operating on weekends.
